Connect Your Exchange

Quick connect an API with OKX

- Click Connect to OKX
- Login at OKX
- Click 'Continue' when prompted

Don't have a OKX account?[Sign up for free at OKX](#)
Why do we need your API keys?

API keys are a unique set of identifiers that allow Cornix to programmatically perform actions on your behalf in your crypto exchange account (Binance, ByBit, etc).

Connect an External Account

Why should I connect an External Account?

Connecting your external account will allow us to detect which Telegram channels or Discord servers you are a member of.

What is a UUID?

This unique identifier helps us verify and connect your Telegram account.

Cornix subscription payment instructions.

1. First, you need to choose a tariff plan. There are four of them, a description of all subscriptions can be found on Cornix. To use the bot, we only need the “Starter” subscription. Click the “Upgrade” button.

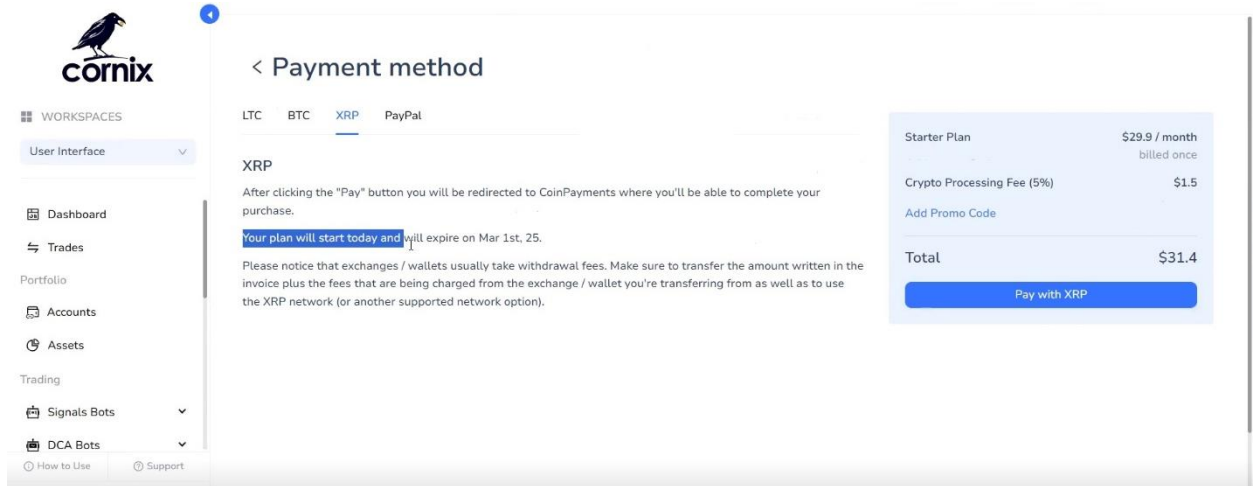

2. Next, you need to choose a monthly or annual subscription. If you choose the annual sublist and enter my promo code, you get a 40% discount.

My promo code: 37F51E4D.

3. Next, select the payment method. Here, XRP is selected.

4. And we transfer funds to the specified address and wait for confirmation of payment. Usually takes about 30-60 minutes.
